ANNUAL INDEX

VOLUME 56
1979

AUTHORS

A

ABE, M.O., and R.C. Lindsay. Influence of processing and palm oil on the carbonyls and fatty acids in Nigerian cassava foods, 512.
ABDUL-BAKI, A.A., see J. Velasco
ADKAR, S.S., see B. Ramesh
AHMAD, M.M., T.M. Priestly, and J.M. Winterbottom. Palladium-catalyzed hydrogenation of soybean oil, 571.
ACKMAN, R.G., see J.L. Sebedio
AHMAD, M.S. Jr., M.U. Ahmad, and S.M. Osman. 2-Ethoxalkanoic acid: A coproduct during synthesis of long chain alpha, β-unsaturated acid, 867.
AHMAD, M.U., see M.S. Ahmad, Jr.
AKIN, C., see P.G. Schnell
ANDERSON, F.S. Is special legislation for vegetable protein really necessary, 238.
Labeling of foods containing vegetable protein, 240
ANJOU, K. see R. Ohlson
ANTON, J.J. The marketing of isolated soy proteins, 409.
APPEL, A.C.M. see J.H.M. Rek
APPELQVIST, L.A. see A. Johansson
APPLEWHITE, T.H. Cereals, snacks and bakery products, summary, 310
Economics of vegetable proteins, summary, 195
Marketing requirements and experiences, summary, 412
Vegetable proteins in meat and fish products, summary, 337
ASHES, J.R., S.K. Gulati, L.J. Cook, T.W. Scott, and J.B. Donnelly. Assessing the biological effectiveness of protected lipid supplements for ruminants, 522
AURICCHIO, S., G. De Ritis, M. De Vincenzi, and V. Silano. Toxicity of cereal protein-derived peptides for in vitro developing intestine from rat fetus, 168
AWL, R.A. see E.N. Frankel
AZEEMODDIN, G., D.C.M. Rao, N.K. Reddy, G.R. Rao, and S.D.T. Rao. Letter to the Editor, Stabilization of rice bran with sodium metabisulfite, 589
see G. Ramakrishna

B

BAGLEY, E.B. Decontamination of corn containing aflatoxin by treatment with ammonia, 808
BALDWIN, A.R. Introduction to the world protein conference issue of JAOCS, 99
BANERJEE, A., and S.S. Nigam. Studies on the fixed oil from the seeds of *Aegle marmelos* Corr., 647
BANIGAN, T.F. see D.M. Yermanos
BASS, D.D. The trials of a traveling technician, 419
BAU, H.M., and G. Debry. Germinated soybean protein products: chemical and nutritional evaluation, 160
BEN-GERA, I., see T.S. De Buckle
BENNETT, G.A., and O.L. Shotwell. Zearalenone in cereal grains, 812
BENVENISTE, P. see L. Cattel.
BERGER, R. and W. McPherson. Fractional distillation, 743A
BETSCHART, A.A. Development of safflower protein, 454
see C.K. Lyon
see P. Fantozzi
BLESSIN, C.W. see G.E. Inglett
BODWELL, C.E. The nutritive value of the same protein preparations as estimated by human, rat, and chemical assays, 156
BOLING, T.M. see T.R. Romer
BONI, L. see W. Van Pee
BOOTH, A.N. see J.J. Rackis
BOUVY, F.A.M., Summarizing remarks—vegetable proteins in fermented foods and other products, 377
BOWERS, R.H. see W.G. Doeden
BRAMSNAES, F., and H.S. Olsen. Development of field pea and faba bean proteins, 450
BRIMBERG, U.I., and I.C. Wretensjo. Rapid method for determination of wax in sunflowerseed oils, 857
BRINKER, A. Review of European legislation on vegetable protein in meat products, 211
BRONIARZ, J. see J. Pernak
BROWN, H. New fatty acids from outer space, 729A
BROWN, W.L. Meat and vegetable protein blends for engineered foods, 316
BUTTERFIELD, R.O. see C.R. Scholfield.
BUZAS, I., and E. Kurucz. Study of the thermooxidative behavior of edible oils by thermal analysis, 685.

C

CABRERA, J.A. see T.S. De Buckle
CAHN, A. Fat-based detergent additives, 809A
CALVIN, M. see E.K. Nemethy
CANTE, C.J., R.W. Franzen, and F.Z. Saleeb. Proteins as emulsifiers: Methods for assessing the role, 71A
CARLSON, K.D. see G.C. Mustakas
CARPENTER, A.P. Jr., Determination of tocopherols in vegetable oils, 668
CASEY, E.A. see R.P. Langguth
CASEY, J.F. Designing vegetable proteins to fit market needs, 398
CATTEL, L., L. Delprino, P. Benveniste, and A. Rahier. Effect of the configuration of the methyl group at C-4 on the capacity of 4-methyl-9-β, 19-cyclosteroids to be substrates of a cyclopropane cleavage enzyme from maize, 6
CERLETTI, P. and M. Duranti. Development of lupine proteins, 460
CHAFIN, T.C. see B.C. Clark, Jr
CHANG, S.P. Allyl esters and allyl epoxy esters from crambe oil, 855
CHANG, S.S. see M.S. Smagula
CHAPMAN, G.W. Jr., Gas chromatographic determination of free fatty acids in vegetable oils by a modified esterification procedure, 77
CHAWLA, A.S. see V.K. Kapoor
CHO, I.C. see C.W. Kolar
CHOBANOV, D.G., and M.R. Topalova. Alterations in glyceride composition during directed interesterification of lard, 581
CHOU, D.H., and C.V. Morr. Protein-water interactions and functional properties, 53A
CHU, W.S., and V.L. Sheldon. Soybean oil quality as influenced by planting site and variety, 71
CLUSKEY, J.E., Y.V. Wu, J.S. Wall, and G.E. Inglett. Food applications of oat, sorghum, and tricale protein products, 481
CLARK, B.C., Jr., T.C. Chafin, and G.L.K. Hunter. The preparation and antioxidant activity of BHA bonded to porous glass, 894
COOK, L.J. see J.R. Ashes.
COOPER, A.R., D.P. Matzinger and T.E. Furia. An improved apparatus for oxygen bomb testing, 1
CORRAO, A. Grapeseed as a possible source of food protein, 460
COWAN, J.C. Characteristics of protein ingredients, summary, 288
Dairy products, summary, 396
Dry roasting of beans, transcript, 168
see P. Van Stratum
Vegetable protein nutrition, summary, 145
Vegetable proteins in confectionery products, summary, 353
CUMMINGS, W.A.W. Launching a successful product on the consumer market, 400

D

DEBRY, G. see H.M. Bau
DE BUCKLE, T.S., L.E. Zapata, G. Silva, J.A. Cabrera, A.M. de Sandoval, I. Ben-Gera, H. Riveros, and I. Shomer. Two food applications of cottonseed flours and meals, 297
DELPRINO, L., see L. Cattel
DEMKO, P.R. see C.N. Rudie
DEOSTHALE, Y.G. see C. Rukmini
DE RITIS, G. see S. Auricchio
DE SANDOVAL, A.M. see T.S. de Buckle
DESMYTER, E.A., and T.J. Wagner. Utilization of vegetable proteins in meats of large cross sectional area, 334
DEVI, K.S. see G. Ramakrishna
DE VINCENZI, M. see S. Auricchio
DICKENS, J.W. see T.B. Whitaker
DILLAN, K.W., E.D. Goddard, and D.A. McKenzie. Oily soil removal from a polyester substrate by aqueous nonionic surfactant systems, 59 (SD&C 5)
DIMITROFF, E. see T.K. Miwa
DIMITROV, G.P. see M.P. Velcheva
DIMOV, V.N. see M.P. Velcheva
DODOVA-ANGHELOVA, M.S. see M.P. Velcheva
DOEDEN, W.G., R.H. Bowers and A.C. Ingala. Determination of BHA, BHT and TBHQ in edible fats and oils, 12
DONNELLY, J.B. see J.R. Ashes
D'SOUZA, G.B. The importance of glycerol in the fatty acid industry, 812A
DUNFORD, P.T. Vegetable protein—tomorrow's replacer, 414
DUPUY, G.P. see M.G. Legendre
DURANTI, M. see P. Cerletti
DUTTON, H.J. see C.R. Scholfield

E

EDWARDS, R.H. see R.E. Miller
EGBERG, D.C. see C.W. Fritsch
ELSON, C.M., D.L. Hynes, and P.A. MacNeil. Trace metal content of rapeseed meals, oils and seeds, 998
ENDRES, J.G. see E.F. Sipos
ENG, S. see M. Weiss
EPPLEY, R.M. Trichothecenes and their analysis, 824
ERA, V., and K. Noronen. Refining of tall oil pitch, 992
ERDMAN, J.W., Jr. Oilseed phytates: Nutritional implications, 736

F

FANTOZZI, P., and A.A. Betschart. Development of grapeseed protein, 457
FARRIS, R.D. Methyl esters in the fatty acid industry, 770A
FAUCHER, J.A., E.D. Goddard, and R.D. Kulkarni. Effect of polyoxyethylated materials on the interaction of surfactants with skin, 776 (SD&C 128)
FAVRE, B. Nutritional evaluation and acceptance of a novel spun protein food, 146
FINEBERG, H. Synthethic fatty acids, 805A
FIORITI, J.A. see J. Trumbetas
see R.J. Sims

FISHER, C.H. Viscosity, pour point, and chain length relations for the alcohol ethoxylates, 918 (SD&C 164)
FISHER, G.S. see M.G. Legendre
FITCH, P. Vegetable proteins in snacks, 304
FONDU, M. Nutrition and product identity issues regarding vegetable protein legislation, 234
FRAGALE, C., M. Gargano, T. Gomes, and M. Rossi. Catalytic hydrogenation of vegetable oils I-hydrogenation of soybean oil catalyzed by Rh- and Ir-complexes, 498
FRANKEL, E.N., R.A. Awl, and J.P. Friedrich. *cis*-Unsaturated fatty acid products by hydrogenation with chromium hexacarbonyl, 965
FRANZEN, R.W. see C.J. Cante
FRIEDRICH, J.P. see E.N. Frankel
FRITSCH, C.W., D.C. Egberg, and J.S. Magnuson. Changes in dielectric constant as a measure of frying oil deterioration, 746
FRITZ, E. Interrelationships in fatty acid processing, 744A
FUKUSHIMA, D., Additional comments on traditional fermented foods, 379
Fermented vegetable (soybean) protein and related foods of Japan and China, 357

HONORED STUDENTS, abstracts, 388A
HOWARD, B.G., named chairman of the board for National Association of Margarine Manufacturers, 331A
HUTCHINS, R., takes emeritus membership, 498A

I

INSTITUTE OF FOOD TECHNOLOGISTS, fats and oils symposium announced, 29A
"Foods Lipids" symposium to be held, 331A
INTERNATIONAL ASSOCIATION OF SEED CRUSHERS, President's Review, Supplies, Markets Now Favorable, 1979, 602A
ISF/AOCS WORLD CONGRESS, see AOCS 71ST ANNUAL MEETING, 1980, New York

J

JANSEN, C., general chairman for Northeast Symposium, 1979, 412A
JOHNSTON, P., book review, *Soy Protein and Human Nutrition*, H. Wilcke, D. Hopkins & D. Waggle, eds. 592A
JOURNAL OF THE AMERICAN OIL CHEMISTS' SOCIETY, Statement of Ownership, Management and Circulation, 670A

K

KALUSTIAN, P., named president of ISF for ISF/AOCS World Congress, 38A
KERN, J., profile, 902A
KINCS, F., installed as AOCS North Central Section president, 474A
KRITSCHEVSKY, D., speaks on "Diet and Cholesterol" at Northeast Section meeting, 386A
KROMER, G., U.S. Oilseeds and Products Outlook, 48A

L

LAI, KUO-YANN, book review, *Emulsions, Latices and Dispersions*, P. Becher & M.N. Yudenfreund, eds., 1978, 896A
Surfactants and Interfacial Phenomena, by M.J. Rosen, 108A
LEAD ACETATE, FDA ruling, 402A
LETTER TO THE EDITOR, Warren Goss recalls trip to Germany, 111A
LEYSEN, R., Soy oil consumption trends in the EEC, 892A
LINFIELD, W., book review, *Tensid Taschenbuch*, 1978, 697A
LOVE, J., elected 1980 chairperson of NORCAL section of AOCS, 901A
LOWERY, E. installed as AOCS member-at-large, 1979–80, 376A
LUDDY, F., installed as AOCS Secretary, 1979–80, 376A

M

McCLUNG, L.D., installed as AOCS member-at-large, 376A
McKENNA, F., chosen AOCS NORCAL Section chairman, 127A
MATTHEWS, D., promoted by PVO, 901A
MELENKOVITZ, H., promoted by PVO, 901A
METRIC COMMISSION CANADA, converts edible oil industry, 382A
MILLER, S., named San Francisco Annual Meeting keynote speaker, 285A,492A
MILNER, J.A., book review, *Liver and Aging*, K. Kitani, ed., 1978, 896A
MIN, D., joins Ohio State University staff, 597A
named program cochairman for 1980 methodology Short Course in New York, 364A
MONICK, J., 40 years with Colgate-Palmolive, 37A
MONOGRAPH, *Geometrical and Positional Fatty Acid Isomers*, E. Emken & H. Dutton, eds., to be published by AOCS, 1979, 605A
MOUNTS, T.L., named program chairman for 1980 processing Short Course in New York, 364A

N

NAGEL, N., elected AOCS Southwest Section treasurer, 474A
NATIONAL RENDERERS' ASSOCIATION, 1978 annual meeting held; 1979 meeting announced, 24A
officers named for 1979-80, 331A
NAUGHTON, F., installed as AOCS Vice-president, 1979–80 376A
named 1980 Short Course local chairman, 364A
NEW PRODUCTS, 20A, 120A, 306A, 380A, 426A, 478A, 542A, 598A, 644A, 680A, 915A
NEW PUBLICATIONS, 24A, 110A, 432A, 488A, 594A, 638A, 698A
NITROSAMINES, and cosmetic products, 445A
NORRIS, F., profile, 310A

O

OBITUARIES, Adler, L., 646A
Altherr, F., 412A
Beatty, N., 51A
Bennett, H.C., 379A
De Smet, J.A., 300A
Dormitzer, H.C., 646A
Gahm, J.R., 51A
King, A.E., 126A
Lemancik, J.F., 126A
O'Doherty, P.J.A., 900A
Olcott, H., 379A
Pons, W.A., Jr., 300A
Rich, J.R., 599A
Richardson, A.S., 51A
Richey, T.B. Jr., 599A
Russey, E.D., 421A
Seabold, E.O., 379A
Seed, F., 646A
Stratton, T.C., 460A
ODOR CONTROL IN EDIBLE OIL PROCESSING, by W.J. Gilbert & D.C. Tandy, 654A
OILS AND NATURAL RESINS, selected consumption by the paint industry, 1974–77, 390A
OILSEED OUTLOOK, 1979, record year predicted, 45A
OILSEEDS, U.S. oilseeds and products outlook, by G. Kromer, 48A
World Outlook, by A. Holz, 46A
OILSEEDS AND OILS, International Congress, 1979, New Delhi, India, 640 registrants, 384A
OUTLOOK FOR SOY—1980s, 650A

P

PEOPLE & PLACES, 18A, 126A, 304A, 374A, 422A, 472A, 536A, 582A, 646A, 684A, 900A
PERKINS, E.G., AOCS Short Course session chairman, 1979, 586A
book review, *Base-Catalyzed Reactions of Hydrocarbons and Related Compounds*, by H. Pines & W.M. Stalick, 108A
Encyclopedia of Chemical Technology, Vol. 1, Kirk-Othmer, ed., 108A
Guide to Basic Information Sources in Chemistry, by A. Antony, 1979, 697A
Lipids as a Source of Flavor, by M.K. Supran, 110A
named 1979 recipient of Chicago Chromatography Discussion Group's Annual Merit Award in Chromatography, 390A
PERSONAL CARE PRODUCTS, Swiss, growing 1–2% a year, 402A
PITTSBURGH CONFERENCE, topics announced, 29A
PLACEMENT SERVICE, instructions, sample application, 30A
1979, San Francisco, information and instructions, 156A
POTTS, R., book review, *Principles of Industrial Chemistry*, by C.A. Clausen & G. Mattson, 1979, 896A
PRESIDENT'S CLUB & HONOR ROLL, 10A, 106A, 296A, 366A, 416A, 464A, 528A, 580A, 636A, 710A, 922A
PROCEEDINGS: AOCS SHORT COURSE ON INDUSTRIAL FATTY ACIDS, 1979, Tamiment, PA, 715A

R

RANDAG, J.E., committee spokesman for What's Ahead for Edible Fats and Oils in the 1980s, 40A
RAPESEED, canola versus, 382A
REFEREE CERTIFICATES, 1980–81, announcement, 921A
REFEREE CHEMISTS, 1979–80, listed, 552A
RESEARCH AND DEVELOPMENT—private and public views, 119A
RHEE, K.C., promoted at Texas A&M, 902A
ROSENTHAL, M., awarded International Prize for Cosmetology and Perfumery, 562A
receives Society of Cosmetic Chemists' Merit Award, 92A
RUTGERS UNIVERSITY, alumni association formed, 39A

S

SANDERS, P.A., receives Society of Cosmetic Chemists' Medal Award, 92A
SCHMOLKA, I.R., general chairman for AOCS Short Course Detergents Eight-O, 622A
SECTIONS OF AOCS, NORCAL elects 1980 officers, 901A
to meet in San Francisco, 648A
North Central Section, 1979, annual One-Day Symposium announced, registration card, 137A
1979 fall meeting, Elmwood Park, IL, 1979, 702A
1979–80 meetings scheduled, 594A
Symposium held 1979, 386A
NORTHEAST SECTION 18th Annual Symposium announced, registration card, 132A
Dr. L.S. Silbert, speaker, 26A
1979 Ladies' Night, 95 attend, 474A
meeting at Robin Hood Inn, David Kritschevsky, speaker, 386A
1979-80 meetings scheduled, 594A
18th Northeast Symposium attracts 60, 387A
19th Annual Symposium, Processing and Nutrition of Edible Fats & Oils, invitation, 586A
19th Annual Symposium, 1979, Processing and Nutrition of Edible Fats and Oils, speakers and topics announced, 412A, 474A, 536A, 586A, 648A

SELIKOFF, I., speaks at 18th Northeast Symposium, 1979, 387A
SHORTLAND, F.B., extended emeritus membership by governing board, 38A
SILBERT, L.S., speaks at Northeast Section dinner, 26A
SIMS, R.P.A., retires from Agriculture Canada, 333A
SMALLEY CHECK SAMPLE PROGRAM, 1980, order deadline announced, 341A
1979 results given, 434A
SMALLEY CUP, 1978–79, awarded to R.M. Fox, 434A
SMALLEY, DOUGHTIE CUP WINNERS, listed, 551A
SMALLEY PROGRAM, Referee Chemists Program, Vital to Nation's Oilseed Industry, 549A
SMITH, J.R., committee spokesman for What's Ahead for Edible Fats and Oils in the 1980s, 40A
SMOUSE, T.H., installed as AOCS Treasurer, 1979–80, 376A
SOAP AND DETERGENT ASSOCIATION, annual meeting, 1979, Boca Raton, FL, highlights, 344A
officers elected, 345A
SOAP, DETERGENT AND COSMETICS FOUR CORNERS, report from Australia, 348A
report from Japan, 504A
SOAP, DETERGENT AND COSMETICS COMMITTEE SPOTLIGHTS, 348A
SOCIETY OF COSMETIC CHEMISTS, best paper award presented to Stig Friberg, 92A
Medal Award, 1978, presented to Paul A. Sanders, 92A
Merit Award, 1978, given to Maurice L. Rosenthal, 92A
SONNTAG, N.O.V., profile, 378A
installed as AOCS president, 1979–80, 376A
SOYBEANS, one billion bushels predicted for 1978–79, 389A
US export graph, 319A
SOYCRAFTERS ASSOCIATION OF NORTH AMERICA, journal publication announced, 315A
STEFFEN, Albert H., retires from Armour & Co., 534A
SURFACE ACTIVE AGENTS, Spanish Committee, holds Barcelona meeting, 441A
SURIANO, J., installed as North Central Section secretary-treasurer, 474A
SWERN, D., book review, *Aromatic and Heteraromatic Chemistry, Vol. VI*, H. Suschitzky & O. Meth-Cohn, sr. ed., 532A
committee spokesman for What's Ahead for Edible Fats and Oils in the 1980's, 40A
SYMPOSIUM: Functionality of Proteins, 53A
The Pharmacological Effect of Lipids, J. Kabara, ed., published by AOCS, 1979 606A
The Science of Fatty Materials, Sponsored by Deutsche Geselisenaft fur Fettwissenschaft (DGF), information given, 294A

T

TAKAHASHI, Y., elected 1980 arrangements chairman for NORCAL section of AOCS, 901A
TANDY, D.C., see W.J. Gilbert
TARANTO, M.V., book review, *Functionality and Protein Structure*, A. Pour-El, ed., 1979, 697A

U

USDA, NORTHERN REGIONAL RESEARCH CENTER, AOCS to tour, 647A
U.S. AGENCY FOR INTERNATIONAL DEVELOPMENT, "Soybean Processing for Food Uses" training course to be conducted, 331A
U.S. may have third consecutive record soybean crop, 484A

V

VAN DUYNE, F.O., book review, *The Book of Miso*, by W. Shurtleff & A. Aoyagi, 592A

W

WALL, R., named AOCS Official Referee Chemist, 390A
WELLS, P.A., chosen NORCAL Section chairperson/elect-secretary, 127A
WHY BECOME AN OFFICIAL REFEREE CHEMIST, 550A
WILLIS, B., elected 1980 treasurer of NORCAL section of AOCS, 901A
WITTING, L.A., book review, *Advances in Lipid Research*, R. Paoletti & D. Kritchevsky, eds., 592A
Advances in Parenteral Nutrition, I.D.A. Johnston, ed., 1978, 897A
Application of High Performance Liquid Chromatography, A. Pryde & M.T. Gilbert, 1979, 697A
Densitometry in Thin Layer Chromatography—Practice and Applications, J.C. Touchstone, J. Sherman, eds., 532A
The Fat Soluble Vitamins, Handbook of Lipid Research, Vol. 2, H.F. DeLuca, ed., 16A
Function and Biosynthesis of Lipids, Advances in Experimental Medicine and Biology, Vol. 83, N.G. Bazan, R.R. Brenner & N.M. Guisto, eds., 16A
Instrumentation for High-Performance Liquid Chromatography, by J.F. Huber, 638A
WOLFF, J.P., committee spokesman for What's Ahead for Edible Fats and Oils in the 1980's, 40A
WORLD CONFERENCE ON SOYA PROCESSING AND UTILIZATION, 1980, Acapulco, announcement, 578A,632A, 684A,906A
WORLD CONFERENCE ON VEGETABLE FOOD PROTEINS, advisory committee, pictured, 222A
commission of European committees report, 282A
list of delegates, 262A
Dutch Evening photographs, 260A
executive committee, pictured, 214A
exhibitors listed, 244A
exhibitors photo collage, 248A
Greetings from..., 242A
honorary committee, pictured, 218A
ladies' program committee, listed, 230A
local committee, pictured, 230A
opening ceremony photographs, 252A
participating organizations, listed, 238A
photographs of ladies' program, 258A
round table discussion reporters listed, 287A
steering and program committee, listed, 234A
WORLD SOYBEAN RESEARCH CONFERENCE II, date announced, 7A

Z

ZILCH, K., receives 18th Fatty Acid Service Award from Fatty Acid Producer's Council 344A

SUBJECTS

A

ACID, azelaic, synthesis from fats, 845A.
branched chain, review, 823A
brassylic, from erucic acid, 845A
caffeic, in oilseeds, effect on meals, 711
carboxystearic, C-19 synthesis, 845A
chlorogenic, in oilseeds, effect on meal, 711
p-coumaric, in oilseeds, effect on meals, 711.
dibasic, synthesis from fats, review, 845A
dodecanedioic, synthesis, 845A
erucic, oxidation to brassylic acid, 845A
epoxy, new crops as sources, 845
2-ethoxyalkanoic, as coproduct of synthesis of (alpha, beta)-unsaturated acids, 867
ferulic, in oilseeds, effect on meals, 711.
hydroxy, new crops as sources, 845
p-hydroxybenzoic, in oilseeds, effect on meals, 711
oleic, carboxylation to carboxystearic acid, 845A
ozonolysis to azelaic acid, 845A
penicillic, review of research, 784
phytic, concentration in oilseeds, 736
quinic, in oilseeds, effect on meal, 711
sebacic, synthesis from castor oil, 845A.
sorbic, hydrogenation using chromium hexacarbonyl catalyst, 965
stearic, in candles and crayons, 849A
by water emulsion separation process, 853A
suberic, synthesis from fats, 845A
syringic, in oilseeds, effect on meals, 711
undecandioic, synthesis, 845A
α,β-unsaturated, synthesis, 867
vanillic, in oilseeds, effect on meals, 711
ACID VALUE of commercial fatty acids, 786A
ADHESIVES, use of dimer acids, 849
Aegle marmalos, properties of seed oil, 647
AFLATOXIN, field contamination of corn in Georgia, 798
inactivation, by ammonia, 803,808
in cottonseed meal, 803
minicolumn screening methods, 795
rapid analysis in dairy products, 800
review of research, 784
variability of testing in corn, 789
AGING, effect on liver, book review, 896
Aiphanes acanthophylla, fatty acid distribution of seed oil, 528
ALCOHOL, cetyl, properties, 853A
formation during beef irradiation, 611
lauryl, properties, 853A
myristyl, properties, 853A
oleyl, properties, 853A
see also fatty alcohols.
stearyl, properties, 853A
ALCOHOL ETHYOXYLATES, viscosity, pour point and chain-length relation, 918
ALCOHOL SULFATES, see sulfates.
ALCOHOLYSIS of fats and oils, 751A
ALDEHYDES, formation during beef irradiation, 611
ALKANES, formation during beef irradiation, 611
structure relationships by computer modeling, 1008
ALKANOLAMIDES, as detergent additives, 809A
preparation from methyl esters, 770A
ALKENES, formation during beef irradiation, 611
ALKYL DIMETHYL POLYOXYETHYLENE QUATERNARIES, properties, 1015
ALKYL PHOSPHATE SURFACTANTS, skin irritation, 604
ALKYLTHIOMETHYLPYRIDINUM CHLORIDES, synthesis and bactericidal properties, 830
ALLYL ESTERS of crambe oil, preparation, 855
ALLYL ISOTHIOCYANATES, HPLC analysis in rapeseed meal 837
AMIDES, ethoxylated, preparation and use, 796A
from fatty acids, 796A
fatty, ethoxylated, 796A
solubility in various solvents, 796A
AMINE OXIDES, determination in detergents, 701
fatty acid, manufacture and uses, 796A
manufacture and uses, 796A
AMINES, ethoxylated, 796A
from fatty acids, 796A
secondary, preparation and uses, 802A
tertiary, preparation and uses, 802A

AMINES, FATTY, analytical testing, 786A
melting points, 796A
secondary and tertiary, 802A
AMPHOTERIC β-ALANINES, effect of pH on properties, 914
AMPHOTERIC SURFACTANTS. See surfactants, amphoteric.
AMYLOMAIZE, lipids of germ, endosperm, pericarp, 531
ANIMAL FATS. See fats, animal.
ANTIMICROBIAL ACTIVITY of fatty acids and derivatives, 760A
of soap aroma agents, 595
ANTIOXIDANTS, determination in edible oils by gel permeation chromatography, 12
effectiveness of BHA bonded to glass, 894
effect on odors during fat frying 659
evaluation of S-nitrosocysteine, 74
APPLE SEED TRIGLYCERIDES, glyceride distribution, 648
Arachis hypogaea (peanuts), triacylglycerol composition, 953
Arachis villosulicarpa (peanut), triacylglycerol composition, 953
Areca sp., fatty acid distribution of seed oil, 528
Arecastrum romanizoffianum, fatty acid distribution of seed oil, 528
ATHEROSCLEROSIS, comparison of vegetable and animal protein diet, 135
Atropa belladonna (nightshade), as toxic weed in soybeans, 706
AUTOXIDATION, of oils, effect of sugars, 742
Avena sativa, lipid composition of oats, 80
AZELAIC ACID, See acid

B

BACTERICIDAL PROPERTIES of fatty acids and derivatives, 760A
of pyridinum chlorides with alkylthiomethyl groups, 830
Bactris major, fatty acid distribution of seed oil, 528
BAKED PRODUCTS, use of oil, 944,948
BEANS, dry roasting, 168
effect of processing on nutritive value, 150
BEEF, irradiated, lactone formation, 906
radiolytic compounds, 611
BEEF PATTIES, extending by oilseed meals, 86A
Bentinckia nicobarica, fatty acid distribution of seed oil, 528
BETAINES, as lime soap dispersants in soap-based detergents, 771
BHA (butylated hydroxyanisole), bonded to glass antioxidant activity 894
determination in edible oils, 12
BHT (butylated hydroxytoluene), determination in edible oils, 12
BLEACHING EARTHS, adsorption of carotene, 672
Borassus flabellifer, fatty acid distribution of seed oil 528
BOROHYDRIDE, determination in organic media, 520
BRANCHED CHAIN FATTY ACIDS. See acids.
BRASSYLIC ACID. See acid.
BREAD, emulsifiers used with oil, 948
food emulsifier uses, 831A
use of oil, 944
with soybean protein, 301
BREAD DOUGHS, effect of gluten, 78A
BREAD SOFTENERS, 831A
9-BROMONOANOIC ACID, synthesis, 22
BUTENYL ISOTHIOCYANATES, HPLC analysis in rapeseed meal, 837
BUTTERFAT, hydrocarbon components, 485
Buttia capitata, fatty acid distribution of seed oil, 528
tert, BUTYL HYDROQUINONE, determination in edible oils, 12
BUTYLATED HYDROXYANISOLE. See BHA
BUTYLATED HYDROXYTOLUENE. See BHT

C

CAFFEIC ACID. See acid.
CAKES, use of vegetable oils, 948
CALCIUM COMPLEXING SPECTROPHOTOMETRIC DETERMINATION, 591
CALCIUM STEAROYL-2-LACTYLATE, as food emulsifier, 831A
Calendula officinalis, as potential source of conjugated oils, 845
CANDLES, stearic acid use, 849A
CAPILLARY COLUMN GAS CHROMATOGRAPHY, analysis of fatty acids, 933
CAPRIC ACID, toxicity and skin irritation studies, 760A
CAPRYLIC ACID, toxicity and skin irritation studies, 760A
CARAMEL, containing soy protein, 354
ω-CARBETHOXY FATTY ACIDS, reaction of sodioesters with brominated acids, 22
CARBONYLS of palm oil and Nigerian cassava foods, 512
CARBOXYSTERIC ACID. See acid
Cardamine impatiens, as potential crop for hydroxy acids, 845
CARDENOL, in cashew nut oil, 616
CAROTENE, adsorption by bleaching earths, 672
Caryota mitis, fatty acid distribution of seed oil, 528
Caryota urens, fatty acid distribution of seed oil, 528
CASHEW NUT OIL, cardenol content, 616
CASTOR OIL, alkaline treatment to yield sebacic acid, 845A
isocyanate modified, 624
use in industrial products, 717A
CASTOR OIL ESTOLIDES, as plasticizers for polyvinyl chloride, 569
CASTOR SEED, as toxic weed in soybeans, 706
CATALYSTS, hydrogenation 664
Centranthus macrosiphon, as potential source of conjugated oils, 845
CEREALS, zearalenone occurrence, 812
CETYL ALCOHOL. See alcohol
CHEESE, cottage, comparison of human, rat and chemical assays, 156
CHEMICAL TECHNOLOGY, encyclopedia, book review, 108A
CHEMISTRY, guide to information sources, book review, 697A
industrial principles, book review, 896A
Chionecetes opilio (snow crab), fatty acids of oil, 834
CHLOROGENIC ACID. See acid
CHOLESTADIENE, in anhydrous butterfat, 485
CHROMIUM HEXACARBONYL, as hydrogenation catalyst, 965
CRITININ, review of research, 784
Cleome viscosa seed, nutritive value of meal 503
COATINGS, use of oils, 849
Coccothrinax argentea, fatty acid distribution of seed oil, 528
Coccothrinax miraguama, fatty acid distribution of seed oil, 528
COCKLEBUR, as toxic weed in soybeans, 706
COCONUT OIL, effect of heat on volatile components, 494
use in industrial products, 717A
US outlook 1979, 48A
volatiles, 494
COCONUT OIL ALKANOLAMIDES, as detergent additives, 809A
COCONUT PROTEIN, see protein, coconut
Cocos nucifera, fatty acid distribution of seed oil, 528
CODEX ALIMENTARIUS, standards for fat and oil composition, 961
COFFEE WHITENERS, containing soy proteins, 389
CONDITIONERS, use in bread containing oil, 944
CONJUGATED OILS, potential crop sources, 845
COPPER CATALYZED HYDROGENATION, continuous, 506
COPPER CHROMITE, effect of pressure on selectivity of catalytic hydrogenation, 981,987
as selective hydrogenation catalyst, 981,987
COPPER CHROMITE CATALYSTS, activity in hydrogenation, 974
COPPER HYDROGENATION CATALYST, activity, 974
effect on selectivity, 36
CORN, change in lipids during kernel development, 759
enzyme cleavage of cyclopropane ring of steroids, 6
field contamination with aflatoxin in Georgia, 798
inactivation of aflatoxin by ammonia, 828
lipids of fractions, 531
lipids of germ, endosperm, pericarp, 531, 637,759
testing for aflatoxin, 789
CORNCOCKLE, as toxic week in soybeans, 706
CORN GERM PROTEIN, see protein, corn germ
CORN OIL, phospholipids and glycolipids, 637
CORN OIL TOCOPHEROL by HPLC analysis 668
CORROSION INHIBITORS, fat-based, 849
COTTAGE CHEESE, comparison of human, rat and chemical assays, 156
COTTONSEED, effect of gossypol on protein quality 727
flavonoid and phenolic components 727
COTTONSEED FLOUR, food applications, 297
COTTONSEED MEAL, aflatoxin inactivation, 803
COTTONSEED OIL, hydrogenation rate, 578
tocopherol by HPLC analysis, 668
use in industrial products, 717A
US outlook 1979, 48A
COTTONSEED PROTEIN, food uses, 422
p-COUMARIC ACID. See acid
COWCOCKLE, as toxic weed in soybeans, 706
CRAB, snow, fatty acid composition of oil, 834
Crambe abyssinica, as potential source of erucic acid, 845
CRAMBE OIL, allyl esters and allyl epoxy esters, 855
potential for industrial use, 845
CRAMBE OIL WAX ESTERS, stability by thermogravimetric analysis, 629
CRAYONS, stearic acid use, 849A
CROTALARIA, as toxic weed in soybeans, 706
Cuphea sp., as potential sources of short chain acids, 845
CYANOGENS of soybeans, effect on human nutrition, 121
CYCLOSTEROIDS, cleavage of cyclopropane ring by enzyme from corn, 6

D

DAIRY ANALOGS, using vegetable proteins, 404
DAIRY PRODUCTS, rapid analysis of aflatoxin M_1, 800
Datura stramonium (jimsonweed), as toxic weed in soybeans, 706
DECAGLYCEROL, preparation and properties, 835A
DEEP FAT FRYING, odors, 659
DEHYDRATED CASTOR OIL, isocyanate modified, 624
DEODORIZATION, odor control, 654A
DEODORIZER DISTILLATES, recovery systems, 654
DEOXYNIVALENOL, analysis, 824
occurrence and hazard, 820
DETERGENT ADDITIVES, fat-based, 809A
DETERGENTS, carbon distribution of alkyl sulfates by GC, 689
fat-based, 827A
soap-based, betaine lime soap dispersants, 771
soil removal from polyesters by nonionic surfactants, 59

spectrophotometric determination of calcium complexing ability, 591
DETERGENCY, oily soil removal, 59
DIACETOXYSCIRPENOL, analysis, 824
occurrence and hazard, 820
DIACETYL TARTRATE derivatives of monoglycerides, food uses, 831A
DIAMIDES, fatty acid, preparation and use, 796A
DIAMINES, fatty, preparation and uses, 802A
DIBASIC ACIDS, in synthetic lubricants, 841A
see also acids
DIELECTRIC CONSTANT, as measure of deterioration, 746
DIETHYLENE GLYCOL MONOESTERS, determination of diester, 775
DIGLYCERIDES, animal feeding studies, 760A
DIGLYCEROL, preparation and properties, 835A
DIHYDROGENATED TALLOW QUATERNARIES, effect of manufacturing variables on solution properties, 542
